Subject: Give Portland a Healthy River

Dear Administrator Gina McCarthy,

Dear EPA workers,

The optional plans you propose are impressive, but for sure we need a stronger clean up plan that removes more contamination and restores a healthy river sooner than Alternative I. We can do better than that to care for our wildlife and the health of all of us who love and depend on the river. The wild card is climate disruption which is upon us, so all haste is required to move rapidly to a better solution.

Sincerely,

(b) (6)

Portland, OR 97232
